## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

### **First Office Action on the Merits**

#### ***Information Disclosure Statement***

1. The information disclosure statement filed September 3, 2002 fails to comply with 37 CFR 1.98(a)(1), which requires a list of all patents, publications, or other information submitted for consideration by the Office. It has been placed in the application file, but the information referred to therein has not been considered.

#### ***Specification***

2. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 11, 11-24 have been renumbered 11-25.

#### ***Double Patenting***

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-23 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of copending Application No. 10/066,964. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are both drawn to compositions comprising the  $17\alpha$ -(2-furanylcabanoyloxy) ester of fluticasone. The difference between the two applications is based on the scope of the claimed compositions. The present application, unlike the latter application, is limited to an aqueous suspension. However, an aqueous suspension can be delivered as an aerosol and, thus, the instantly claimed composition is encompassed by the claimed composition of the latter application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

5. Claims 1-25 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 and 10-18 of copending Application No. 10/066,836. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are both drawn to compositions comprising the  $17\alpha$ -(2-furanylcabanoyloxy) ester of fluticasone. The difference between the two applications is based on the scope of the claimed compositions. The latter application, unlike the present application, recites a

formulation for administration by inhalation comprising the claimed compound and a  $\beta_2$ -adrenoreceptor agonist for treatment of respiratory disorders over a period of 24 hours or more. However, the presently claimed aqueous suspension can be (a) delivered by inhalation (see page 9, lines 4-24 of the present application); (b) utilized for treatment of respiratory disorders over a period of 24 hours or more (see page 10, lines 16-19) and (c) administered in combination with other therapeutic agents (see page 10, line 21 – page 11, line 3). Therefore, the instantly claimed composition is encompassed by the claimed composition of the latter application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### ***Telephone Inquiry***

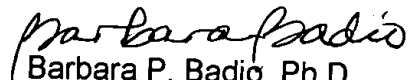

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara P. Badio, Ph.D. whose telephone number is 703-308-4595. The examiner can normally be reached on M-F from 7:30am-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page can be reached on 703-308- 2927. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1235.
